

Preetinderjeet Singh

Ludhiana, Punjab, India • singhpreetinder229@gmail.com

PROFESSIONAL SUMMARY

Third-year B.Tech Computer Science student at Guru Nanak Dev Engineering College with an average CGPA of 8.2. Passionate about Cybersecurity and Artificial Intelligence, with hands-on experience in developing AI-based solutions and a growing interest in system-level programming and security research. Strong problem-solving ability, quick learner, and eager to contribute technical and analytical skills to challenging projects and global opportunities.

PROFESSIONAL EXPERIENCE

AI Internship – Deep Learning Waste Classification Model

Remote

June 2024 – August 2024

- Designed and implemented an AI-based waste classification system using deep learning techniques, classifying 5 different type of waste classes with high accuracy.
- Applied Python libraries (TensorFlow/Keras, NumPy, OpenCV) for data preprocessing, model training, and evaluation.
- Contributed to sustainable development by integrating AI with environmental solutions.
- Documented research, optimized training models, and presented findings to mentors.

Academic & Independent Projects

- Cybersecurity Practice Labs: Hands-on exploration of Linux commands, networking, penetration testing basics, and capture-the-flag challenges to strengthen red-team and defense skills.
- Python Automation Scripts: Developed basic automation scripts for file handling, scraping, and simple network utilities.
- Frontend Development: Built small-scale websites using HTML, CSS, and Bootstrap, experimenting with UI/UX and responsive design.

EDUCATION

Bachelor of Technology – Computer Science and Engineering

Guru Nanak Dev Engineering College, Ludhiana, Punjab

Expected Graduation: 2027

CGPA: 8.2 (till 3rd Year)

SKILLS

Technical Skills

- Programming & Tools: Python, C, C++, HTML, CSS, Javascript, TensorFlow, OpenCV
- Domains: Artificial Intelligence, EDA, Deep Learning, Cybersecurity Fundamentals, Frontend Web Development
- Other: Git/GitHub, Basic Networking, SQL

Soft Skills

- Leadership, Communication, Team Collaboration, Problem Solving, Analytical Thinking, Adaptability

FIELDS OF INTEREST

- Cybersecurity & Artificial Intelligence: Exploring the intersection of AI-driven security solutions, automation for threat detection, and ethical hacking.
